

ELEVARE EDGE:  
WEEKLY TIP

# What to do with your awards and accolades?

Now that rankings  
and awards results  
are being  
announced in Asia.

# One Win, Two Strategies.

To maximize ROI, you need to  
attack the news from two angles:

**The Firm Strategy**

**The Individual Strategy**

# The Firm Strategy

**Shape the  
narrative.  
Broadcast  
the win.**

# 1. Analyse The Data

Before you post, look at the big picture.

**The Trends:** Did you move up a tier? Maintain a top spot?

**The Competition:** Who moved up alongside you? Who dropped?

**The Story:** Use this data to shape your "headline" (e.g., "*Our M&A Practice grows again*").

## 2. Internal & External Comms

Get the news out to the right people.

**Internal:** Send a firm-wide memo celebrating the teams. Your colleagues need to know your achievements to help sell you.

**External PR:** Issue a press release for major tier jumps or "Firm of the Year" wins.

**Social Media:** Post the official "ranked" graphics on the Firm Page immediately.

# 3. Update Firm Assets

Do your marketing materials match your new status?

## Pitch Decks

Update the "**Awards & Accolades**" slides in your master templates immediately.

## Brochures

Ensure capability statements and recruitment materials reflect the new tier rankings.

# The Individual Strategy

Own your  
brand.

Connect with  
clients.

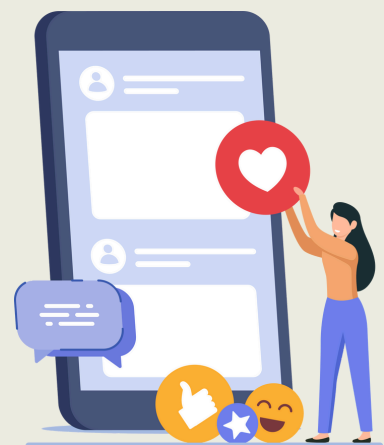

# 1. Connect with Clients

This is the perfect moment to reconnect with your network.

**The Client Mailer:** Send a personal note to your referees. Thank them for their feedback - they are the reason you are ranked!

**The Social Post:** Don't just post the logo. Quote the specific **testimonials** the directory wrote about *you*.

## 2. Update Personal Assets

Ensure your credentials are  
current
